

One Programme Does It All -

Spark turns idea maps into complete documents.

Work Faster -

Create projects and essays in a fraction of the time it normally takes.

Organise -

Spark-Space allows you to organise and prioritise a schedule.

Students Self Proof Read -

Spark-Space has built-in 'text to speech'.

Spark-Space turns ideas into documents, showing the relationship between both. Spark-Space is also excellent for special needs students to express their ideas and put them into writing, and the self check, with its simple text to speech function. Its simple to use style allows an idea map or document to be created in minutes.

Available for Windows and MacOS X.
